

Mankayan Copper-Gold Project Monthly Report for October 2022

- Rehabilitation of CDH-61 and CDH-62A drill sites are in-progress.

Photo 3. CDH-61 drill site rehabilitation. Riprapping and covering the drill site with soil for farming. PVC pipe inserted in the hole and collar cemented.

Photo 4. CDH-62A drill site rehabilitation complete. Cemented and plugged collar of CDH-62A (left). Soil backfilled drill pad and access track (right).

- Site rehabilitation of CDH-61 and CDH-62A completed.

Community

- Community Development Program (CDP) planning was held last Sep 29 with MGB CAR and officials of Brgy. Bulalacao and Brgy. Guinaoang in attendance. Concreting of the farm to market road at Sitio Colocol that is part of CMDC's infrastructure project started last Oct 23.

Photo 6. CMDC farm to market road project at Sitio Colocol which will extend the preexisting concrete road to ~100m. Photos A and B show the road condition of the start and end portion of the dirt road to be concreted prior to the construction. Photos C and D show the construction progress of similar areas. Completed concreting of ~20m from the end of the proposed extension (Photo D).
