

Mankayan Copper-Gold Project Monthly Report for March 2023

Environment

- Checked rehabilitation status of the two drill pads. CDH-61 have been recently planted with cabbages while CDH-62A have been toiled and is ready for planting.
- Mankayan PNP requested for 150 pine tree seedlings for their Tree Planting activity. They held the first part of their tree planting program last March 17 where CMDC donated 80 pine tree seedlings. The remaining 70 pine tree seedlings has been prepared and ready for pick-up for their next tree planting activity.
