Comrel Activities**FPIC Activities:**

- Conducted 1st pre-FPIC meeting between CMDC, MGB-CAR, NCIP, and Mankayan IPMR last Nov 20. Meeting covered the following:
 - Issue on MPSA overlap with Buguias put to rest – FPIC to cover the Ancestral Domain of Mankayan only.
 - NCIP people are happy with MGB-CAR's explanation that MPSA renewal was granted conditional upon the CMDC securing a Certificate of Precondition/FPIC.
 - MGB's endorsement of the FPIC applied for was interpreted by NCIP and IP representative to cover the PFS only based on submitted two-year work program. We pressed on an FPIC that will cover the 25-year period to which parties agreed. To rectify this matter, RD Fay suggested that Crescent submit a Gantt chart showing proposed activities beyond the PFS period.
